CURATED TOUR

"What distinguishes most of the presentations organised by these spaces is that they are not necessarily oriented towards the display of art-works. The visitor will also find performances, screenings, interactive machines, set designs, artist's books, as well as a host of other events that are not limited to the purely visual and that usually have their place on the margins of an exhibition."

Caroline Dumalin

Petercam

The main draw to collecting art is its emotional aspect. It is important, however, to incorporate one's art collection into one's assets at large. These assets, in turn, need long-term management to ensure a smooth transition to future generations. To take these thoughts a step further, contact our department of Private Banking on the following email address : private.banking@petercam.be

Petercam created the **Bxl Art Days** App to download an interactive map detailing the gallery tour and curated tour (available in the App Store for free as from July 30th).
